Dear Sir:

Thanks much for your letter of September 1, 1992 in reply to mine of 8/26/92.
This raises a question.
I.
You state - quote: "I know I got some relating to me from the 'Coordinator of Information's files', which the OSS inherited, from the CIA. "
Do you mean by "CIA" the Central Intelligence Association which was in existence from before WWI, thru the intervening period, and to the early WWII.

I am aware there was a few months in which Roosevelt had a sort of personal intelligence agency of his very own in his office.

II.
Are you by any chance a Baltimore lawyer related to the early 1940's one/named Fred Weisberg?

Are you Jewish - German or Russian?

III.
In your OSS travels-sojourn-employment, did you run into the OSS's operation movement of 'illegal Jews' into the U.S.A. under cover of forged documents. I already know of possibly seven (7) operation locations for this activity - vast numbers of them.
If you know of the existence of the operation - Do you known ANY CODE NAMES. Never mind the F.B.I. and the various Military Service Operations - I already have some of them also.

Thanks for any help you can give. If I can find the possible bus service available, I might come to Frederick where perhaps the subject can be discussed.

Thanks much for your reply. You can just make notes on this letter and return it if you find it will save your time.

Very truly yours,

Alice Koone
